DR. JACOB SCHNEIDER CALLED BY THE MESSENGER OF DEATH.

Passed to Slumber at His Ridgewood Home This Morning at 7:00.

Dr. Jacob Schneider died this morning at 7:00 o'clock, at his home on North Ridgewood avenue, following a unusually long struggle with that often fatal disease, pneumonia.

The doctor's strong vitality had sustained him so well that his family and friends were led to hope that he might yet be spared to them, but his heart action was weakened and a sinking spell at about 1:00 a. m., was followed in a few hours by death. He was conscious up to the last and was surrounded by his family, who had been summoned to his bedside by his very critical condition. Dr. Schneider's kindly manner had endeared him to many in this city who were closely watching his condition and hoping for his recovery.

Dr. J. Schneider was born near Marietta, Ohio, in October of the year 1846. He graduated at Berea, Ohio, and from there went to Cleveland and graduated from the homeopathic college in that city and practiced medicine successfully in Cleveland for over thirty years.

About seven years ago business interests called him to Philadelphia and recently he became interested in Daytona and purchased a beautiful winter home on North Ridgewood avenue, which he occupied with his wife and daughter last winter.

Mrs. Schneider and their daughter, Miss Flora, were with the doctor [illegible] and when he was taken ill several weeks ago with pleurisy, which developed into pneumonia, his son, Dr. J. Homer Schneider, came from Cleveland, Ohio, to attend him. Two other sons, the eldest of the family, Louis, of Cleveland, and the youngest, Nathaniel, of Philadelphia, arrived a few days later.

Dr. Schneider was a Thirty-Second Degree Mason and president of the Philadelphia Fire Brick Works. He was a physician of excellent reputation and a genial, warm hearted gentleman, who will be missed by his many friends here and elsewhere. Geo. H. Ludwig, of this city, had been a warm personal friend of the doctor for thirty years o r more.

Funeral services will be held at the residence tomorrow afternoon at one o'clock, Rev .Byron F. Marsh, officiating . The family will leave on the 3:14 train for Cleveland, accompanying the body of the distinguished physician . The interment will be at Riverside Cemetery, in the city where he lived so long, and will be conducted by Holyrood Commandery of the Knights Templar .

CHIEF PROMOTERS OF NATIONAL CORN EXPOSITION AT OMAHA; TWO $1,000 TROPHIES AND CHAMPION EAR OF CORN.

More than $50,000 worth of prizes and trophies offered at the National Corn exposition at Omaha brought exhibits from twenty-five states, which constituted the biggest display of agricultural products ever assembled in this country. In order that the stock raisers might profit by this [illegible] for the efforts of the American Breeders' association arranged to hold their convention jointly with the corn exposition, and it was announced in advance of the show that 200,000 farmers from all parts of the middle west would attend. Silver trophies valued at $1,000 each were offered for the best ear of corn, the best ten ears of corn and the best peck of barley. Cash prizes [illegible] from $1,000 down also were offered in various other grain classes. An interesting feature arranged for the exposition was a domestic science laboratory presided over by experts to demonstrate cooking and buttermaking.

SEES MAN KILLED; MEMORY THEN RETURNS.

CHICAGO, Dec .11— Witnessing a fatal accident caused William Meyers to regain his memory and return to the bride he left three years ago. Meyers was employed in San Francisco and was injured by the earthquake and lost his memory . Since then he has wandered about the country and recently saw a man fall under a freight train and die. Memory cleared and he remembered his identity and returned to his bride . The couple leave today on a belated honeymoon.

Attorney General Scalds It In Report to Congress.

WASHINGTON, Dec. 11—"Of unparalleled depravity," is how Attorney General Wickersham, in his annual report made public today, describes the Sugar Trust's frauds upon the government at the port of New York.

Speaking of the investigations made and of the results so far, the Attorney General says: "The evidence has disclosed a network of corruption, not confined to the American Sugar Refining Company, extending over a period of years, affecting both importers and officers of the government, and it is as yet premature to state the precise extent of the conspiracy or the amount of the revenues of which the government has been defrauded. While it is feared that the statute of limitations may have run in favor of many of the malefactors who are responsible for these frauds, yet no effort will be spared to ascertain the precise amount of which the Government has been defrauded, to recover all moneys due, and to punish all those who may be found to have participated in [illegible]

[illegible] the government expressly reserved the right to prosecute criminally "all individuals who might be shown to have been responsible for the frauds, whoever [illegible] even if such individuals were officers of the company."

The investigation into the criminal liability of participants in the frauds is being vigorously pushed and a number of individuals have been indicted.

FORMER OYSTER DEALER TO BE TRIED FOR FRAUD.

CHICAGO, Dec. 11 — The state's attorney has made arrangements to begin the trial next week of W. Vernon Booth, the clubman and social leader who was formerly president of the A. Booth & Company, and Frederick R. Robbins, the former assistant treasurer of the company. Following the failure last February of A. Booth & Company, which firm was commonly known as the fish trust, President W. Vernon Booth and Assistant Treasurer Robbins were indicted for obtaining $400,000 from the Continental Trust Company by alleged fraudulent books and conspiracy.

According to the testimony before the grand jury, the accounts were falsified so that it would appear to have $1,000,000 more assets than they actually owned. This sum should have been included in the liabilities, it is charged.

The penalty under the statute on which the indictment is based carries a penitentiary sentence of from one to five years and a fine of $2,000, or both.

Attorney General Scalds It In Report to Congress.

WASHINGTON, Dec. 11—"Of unparalleled depravity," is how Attorney General Wickersham, in his annual report made public today, describes the Sugar Trust's frauds upon the government at the port of New York.

Speaking of the investigations made and of the results so far, the Attorney General says: "The evidence has disclosed a network of corruption, not confined to the American Sugar Refining Company, extending over a period of years, affecting both importers and officers of the government, and it is as yet premature to state the precise extent of the conspiracy or the amount of the revenues of which the government has been defrauded. While it is feared that the statute of limitations may have run in favor of many of the malefactors who are responsible for these frauds, yet no effort will be spared to ascertain the precise amount of which the Government has been defrauded, to recover all moneys due, and to punish all those who may be found to have participated in any respect in the frauds, whether as officers or agents of the importers or as officials of the Government. I earnestly request a special appropriation of $250,000 to enable this work to be effectively prosecuted.

"Besides thus federating that the government hopes yet to recover more money from the Sugar Trust, beyond the $2,000,000 already received, the Attorney General lays stress upon the fact that in accepting that sum in full settlement of all civil liabilities for penalties affecting the weighing of sugar at Jersey City and Brooklyn refineries of the Trust, the government expressly reserved the right to prosecute criminally "all individuals who might be shown to have been responsible for the frauds, wherever occuring, even if such individuals were officers of the company."

The investigation into the criminal liability of participants in the frauds is being vigorously pushed and a number of individuals have been indicted.

The report shows that fines were collected from railroads in rebate cases during the last fiscal year to the amount of $329,000. Of this amount $258,000 came from the New York Central.

In the prosecution of the land frauds 21,231 acres of land were recovered and $21,704 in cash.

After referring to the Standard Oil, the Tobacco Trust and the Powder Trust cases and the prosecution against the Terminal Association of St. Louis, which are all now or will presently, before the Supreme Court, the Attorney General announces: "The department is now engaged in the careful investigation of a considerable number of alleged combinations in violation of the (antitrust) act."

SEABREEZE and DAYTONA BEACH, two enterprising and progressive towns on the Halifax Peninsula, are geographically one although incorporated as separate municipalities. The towns parallel the peninsula north and south for a distance of three and one-half to four miles, and extend east and west from the surging sea of the Atlantic Ocean to the Halifax River, the beautiful tide-water stream that sets them apart from Daytona with which they have close connections by means of three bridges, as well as a half-hour ferry service.

Seabreeze and Daytona Beach are essentially summer and winter resorts and are making hundreds of new friends every year among those who desire to escape the discomforting extremes of heat and cold, and their hotels and boarding houses are now enjoying splendid patronage from the most discriminating class of tourists.

The mean average temperature, 80 degrees in the summer and 70 degrees in the winter, with no sudden rise or drop of a few hours duration, marks this as one of the most healthful localities in any section of the country, north, east, south or west.

The ocean itself with its marvelous beach hard as macadam and smooth as a floor is the greatest attraction, although earth and air and sky seem to have entered into a combination to enhance its every charm. The beach is the famous automobile race course where every world's straight-away record has been made and all these records it continues to hold without threat.

SEABREEZE and DAYTONA BEACH, two enterprising and progressive towns on the Halifax Peninsula, are geographically one, although incorporated as separate municipalities. The towns parallel the peninsula north and south for a distance of from three and one-half to four miles, and extend east and west from the surging seas of the Atlantic Ocean to the Halifax River, the beautiful tide-water stream that sets them apart from Daytona, with which they have close communication by means of three bridges, as well as a half-hour ferry service.

Seabreeze and Daytona Beach are essentially summer and winter resorts and are making hundreds of new friends every year among those who desire to escape the discomforting extremes of heat and cold, and their hotels and boarding houses are now receiving splendid patronage from the most discriminating class of tourists.

The mean average temperature, 80 degrees in the summer and 70 degrees in the winter, with an occasional extra rise or drop of a few days' duration, marks this as one of the most healthful locations in any section of the country, north, east, south or west.

The ocean itself, with its marvelous beach, hard as macadam and smooth as a floor, is the greatest attraction, although earth and air and sky seem to have entered into a combination to enhance its every charm. The beach is the famous automobile race course where every world's straightaway record has been made, and all these records it continues to hold without rivalry.

The sand of this famous speedway is composed largely of the shells of the coquina clam, which are about one-half inch long and very thin. For ages Nature has been rolling them up, washing them back into the surf and pulverizing them. Examined under the microscope each particle is round, unfit for mortar builders say, because its roundness prevents its holding together. Yet, strange to contemplate, the very moment a wave leaves the wet apparently soft beach, these round particles settle down into a cement almost as hard as asphalt, beyond the comprehension of one who has not seen it. [illegible] twice each 24 hours [illegible]. The beach has a width of 500 [illegible] feet and can be used from two hours after until two hours before high tide, thus giving an average of seven or eight hours for automobiling every part of each day.

Seabreeze and Daytona Beach each have a permanent population of approximately 1000. Sanitary conditions are strictly enforced, streets and sidewalks are well kept, and new streets are being opened as fast as the increasing population demands. Besides hotels and boarding houses there is ample cottage accommodation for all winter visitors.

Seabreeze contains a handsome opera house and a Congregational Church; at Daytona Beach is a M. E. Church. An excellent high school is situated near the dividing line between the two towns. Both towns have enterprising business establishments, as is evidenced by the advertisements on the left and right.

All the attractions of Seabreeze applies to Daytona Beach, the two towns being so similarly situated. The development of Daytona Beach has been fully as phenomenal as its sister on the north, and each year there is a substantial growth. The great sand dunes have been leveled and handsome homes have been built for both winter and all year round occupants. Flowering shrubs have been planted which are covered with a wealth of bloom both summer and winter.

Work of rebuilding the Clarendon hotel is now in progress. This magnificent fire-proof structure, which is to contain 250 rooms, when completed will be the peer of any hotel in Florida. The site is immediately north of the clubhouse of the Florida East Coast Automobile Association.

The Ocean Pier is a great attraction to fishermen and it is lined summer and winter with enthusiastic disciples of Izaak Walton, who find it nothing unusual to land fish weighing several hundred pounds.

PROGRESSIVE NEW SMYRNA

NEW SMYRNA is situated fifteen miles south of Daytona and is an ideal spot reached from Daytona by a hard surface road winding through one of the most picturesque parts of Florida.

With its ancient ruins dating back to a time when the history of man runneth not, interlaced with wires of the modern telegraph and telephone, its miles of shell streets as hard and smooth as a floor and over-arched by hoary forest giants that grew in stately grandeur during the lapse of bygone centuries, New Smyrna is truly a place of romance and rest.

All nature here is very inviting to the tourist and pleasure-seeker. Here too is to be found the best fishing and hunting in the State of Florida.

The people are thrifty, the business men enterprising, and all unite in extending the welcome hand of hospitality to strangers. There are five church edifices for white people and an equal number for the colored population; the town has an excellent high school, a splendid public library, and up-to-date business houses.

There are any number of pretty homes for the permanent population, which numbers close to 2,000, and some very fine winter residences. There are good hotels and boarding houses where you can find accomodations to meet your requirements.

Adjoining New Smyrna is as fine a section of vegetable land as can be found anywhere. This land has been divided into small farms which can be bought at reasonable prices. Some of the finest celery grown in the State is raised on this land. All other vegetables grow in abundance, and here, too, is the home of the famous Indian River oranges.

New Smyrna has no bonded indebtedness and the tax levy is low.

A point that no tourist should fail to visit is the ruins of the Old Spanish Mission which stand somber and alone about one and a quarter miles southwest of New Smyrna. A good road leads to the place and the trip can be easily made by an automobile. Silent, in the great pine flats by the margin of the forest, is this place of pilgrimage for the pious; this rendezvous for the picnicker. The ruins are extensive, and while there is no authentic history of their origin, it is presumed that the Mission was built by the Franciscans in the days when the once powerful Kingdom of Spain first planted its flag upon what is now American soil. It was built of coquina, the roof being of the same material, cut into thin slabs and covered with cement plaster. Extensive gardens surrounded it, which were enclosed by a stone wall, portions of which still remain. Visitors usually come in parties merry and curious but the spell of the place soon falls upon them and they separate to sit alone, silent and meditative, under the arches or beside the ancient well.

CORONADO

Is situated on the peninsula opposite New Smyrna and is connected by a good road and bridge over the deep current of Indian River. Here you can put aside your conventional garb, breathe in large and deep the salty tonic of the sea and enjoy yourself to your heart's content with rod and reel in row or sail boat or in the ocean surf a short half-mile away. The great varieties of fish inhabiting the river and lagoon pass through the channel from the sea beneath the bridge. From verandas, upper balconies and windows you behold the magnificent river, the distant lagoons and islands, the forest-covered peninsula and the vast reaches of the Atlantic Ocean.

HAWKS PARK

A pretty village located along the ridge above the Indian River two and one-half miles south of New Smyrna and connected with fine shell roads. There is the appearance of newness, comfort and seclusion about the place which stamps it as the abode of people who come here to enjoy the blessings of outdoor life away from places where crowds are apt to gather.

ORMOND-ON-THE-HALIFAX

ORMOND is five miles north of Daytona, located on the western bank of the Halifax River. The location of the town permits of good drainage and perfect sanitation; the elevation is superb and ideal for winter homes. A wide bridge connects Ormond with Ormond Beach.

Many fine residences are maintained on either side of the river, most of them embellished with subtropical flora and shrubbery, besides thrifty orange and other citrus fruit trees.

The town is very cosmopolitan, has an excellent graded school, several churches, a fine public library, up-to-date places of business and comfortable and convenient hotels and boarding houses.

Ormond has many of the Florida attractions—fine fruit, good fishing, excellent automobiling, safe boating, salubrious climate and pleasant walks and drives.

At Ormond Beach is located the large Hotel Ormond, and its lesser sister, Bretton Inn. The former occupies a position overlooking the Halifax River, while the latter has as its outlook the magnificent beach and the broad Atlantic.

The walks in all directions are particularly attractive, and the arbors, shady and inviting spots and romantic nooks are crowded with rustic seats which are mute invitations to enter into the enjoyment thereof.

Besides the broad, smooth ocean beach there are many drives for carriage or automobile—long drives and short drives; drives through groves of golden oranges; drives through dense tropical forests to Spanish ruins; drives to the ancient Causeway built by the slaves of planters of long ago, and drives to the plantations of hospitable settlers, whose places are replete with the interest of Southern fruits and flowers.

One of these interesting plantations is Number Nine, located on the peninsula, five miles north of the Hotel Ormond. Here you see a fine orange grove, together with great varieties of other sub-tropical fruits and flowers.

Five miles further on you come to Moundgrove, one of the finest orange groves in this section of Florida. Moundgrove is on the headwaters of the Halifax River and is amid pretty surroundings. The place is reached by a good road [passing Number Nine] and is a drive all tourists may enjoy.

PICTURESQUE PORT ORANGE

PORT ORANGE is a pretty little village situated five miles south of Daytona on the Daytona-New Smyrna hard-surface road, the scenic highway of the East Coast. The town is located on the Halifax River, over which spans a bridge from the town to the peninsula opposite.

The town is well laid out and has many pretty homes owned and occupied by residents and winter tourists. It has several churches, one of the best graded schools in Volusia county, two general stores, a real estate agency and two or three hotels.

A large number of tourists and winter residents make Port Orange winter headquarters, one of the several attractions being the excellent fishing. Port Orange is in the orange belt and a number of very fine citrus groves are nearby, where oranges, tangerines and grape-fruit hang in profusion. Some of the best trucking land in the State is to be found thereabout and excellent crops are raised.

West of Port Orange a short distance are the remains of the old Dunlawton sugar mill, a spot that is visited every year by hundreds of tourists. At one time all the country west of Port Orange, surrounding the old mill, was a vast sugar-cane and indigo plantation. The mill was operated extensively in those days but has been in disuse for thirty or forty years.

A pretty automobile or carriage drive from Daytona is via the ocean beach to the approach of the Port Orange bridge, across the bridge and then passing through Port Orange to the ruins of the celebrated old sugar mill, returning to Daytona by the road on the mainland. This drive affords a very pleasing variety of scenery.

DELAND, THE ATHENS OF FLORIDA

DELAND, the county seat of Volusia County, is situated 23 miles southwest of Daytona and is reached from the latter city by an excellent hard-surface road recently constructed.

At DeLand is located the John B. Stetson University, one of the leading educational institutions of the South. Because of the interest in matters educational DeLand is known as "The Athens of Florida."

Stetson University has a faculty of 30 professors and instructors. There are over $600,000 in buildings and equipment; nearly $500,000 endowment; a Carnegie Library alone representing an investment in building, endowment and books, of more than $120,000. The library is the United States Government depository for the State of Florida, and contains over 15,000 volumes. Science Hall, one of the newest of 16 buildings, with its furnishings, represents an outlay of $60,000. Elizabeth Hall is one of the most beautiful college buildings in the South.

The city has a population of about 3,500, with a thickly settled country adjacent. DeLand proper is five miles east of the St. Johns River, on the high, rolling pine land of the great "Orange Ridge" of Florida.

The predominating products are oranges and grapefruit, the estimated crop from this vicinity being over 300,000 boxes this year. Grapes, peaches, pears, Japan persimmons, plums, pecans, guavas, strawberries and other fruits are grown in plenty.

In the way of public improvements are many miles of fine shell roads, an excellent high school, electric lights, a system of waterworks that is owned and operated by the city, supplying the purest water at little cost.

Nine houses of worship testify that DeLand is a church-going community. Baptists, Episcopalians, Methodists (Northern and Southern), Presbyterians, Christians and Catholics, besides colored Baptists and Methodists, are represented.

The graded school offers a ten years' course, and the building which it occupies is newly furnished throughout, and is one of the most commodious and best equipped public schools in the State.

The trip from Daytona to DeLand is made by automobile in a little over an hour, and there are many pretty drives in the vicinity of the county site. A good road leads to DeLeon Springs, five miles, a historic spot, where 60,000 gallons of water bubble from the earth every minute. From DeLand automobiles go south to Orlando, 36 miles, via shell and marl roads. [illegible] Orange City and [illegible] Sanford and Orlando by [illegible]. There is a shell road from DeLand to Orange City, five miles, and a good road from DeLand to Lake Helen, a like distance.

Surrounded by several pretty lakes and guarded by lofty pine trees is Lake Helen, a winter resort of no little importance. Camp Cassadaga, a spiritualistic camp-ground is situated near Lake Helen and at this place several hundred people make winter headquarters. A large lumber mill and the largest brick plant in the South are located at Lake Helen.

ORANGE CITY

The principal attraction around Orange City is the many handsome golden orange groves. The town is supplied with water said to be the purest in the world, another attraction to visitors. It is at Orange City that passengers over the Florida East Coast Ry. transfer to carriages and drive to DeLand. The town is surrounded by land peculiarly adapted to the cultivation of citrus fruits.

From verandas, upper balconies and windows you behold the magnificent river, the distant lagoons and islands, the forest-covered peninsula and the vast reaches of the Atlantic Ocean.

HAWKS PARK

A pretty village located along the ridge above the Indian River two and one-half miles south of New Smyrna and connected with fine shell roads. There is the appearance of newness, comfort and seclusion about the place which stamps it as the abode of people who come here to enjoy the blessings of outdoor life away from places where crowds are apt to gather.

ORMOND is five miles north of Daytona, located on the western bank of the Halifax River. The location of the town permits of good drainage and perfect sanitation; the elevation is superb and ideal for winter homes. A wide bridge connects Ormond with Ormond Beach.

Many fine residences are maintained on either side of the river, most of them embellished with subtropical flora and shrubbery, besides thrifty orange and other citrus fruit trees.

The town is very cosmopolitan, has an excellent graded school, several churches, a fine public library, up-to-date places of business and comfortable and convenient hotels and boarding houses.

Ormond has many of the Florida attractions—fine fruit, good fishing, excellent automobiling, safe boating, salubrious climate and pleasant walks and drives.

At Ormond Beach is located the large Hotel Ormond, and its lesser sister, Bretton Inn. The former occupies a position overlooking the Halifax River, while the latter has as its outlook the magnificent beach and the broad Atlantic.

The walks in all directions are particularly attractive, and the arbors, shady and inviting spots and romantic nooks are crowded with rustic seats which are mute invitations to enter into the enjoyment thereof.

Besides the broad, smooth ocean beach there are many drives for carriage or automobile—long drives and short drives; drives through groves of golden oranges; drives through dense tropical forests to Spanish ruins; drives to the ancient Causeway built by the slaves of planters of long ago, and drives to the plantations of hospitable settlers, whose places are replete with the interest of Southern fruits and flowers.

One of these interesting plantations is Number Nine, located on the peninsula, five miles north of the Hotel Ormond. Here you see a fine orange grove, together with great varieties of other sub-tropical fruits and flowers.

Five miles further on you come to Moundgrove, one of the finest orange groves in this section of Florida. Moundgrove is on the headwaters of the Halifax River and is amid pretty surroundings. The place is reached by a good road [passing Number Nine] and is a drive all tourists may enjoy.

COTTAGES AND ROOMS TO LET—Furnished; Modern Improvements; on River Front or Side Streets. Rents Reasonable. Write to W. F. COLBY at Ormond.

PORT ORANGE is a pretty little village situated five miles south of Daytona on the Daytona-New Smyrna hard-surface road, the scenic highway of the East Coast. The town is located on the Halifax River, over which spans a bridge from the town to the peninsula opposite.

The town is well laid out and has many pretty homes owned and occupied by residents and winter tourists. It has several churches, one of the best graded schools in Volusia county, two general stores, a real estate agency and two or three hotels.

A large number of tourists and winter residents make Port Orange winter headquarters, one of the several attractions being the excellent fishing. Port Orange is in the orange belt and a number of very fine citrus groves are nearby, where oranges, tangerines and grape-fruit hang in profusion. Some of the best trucking land in the State is to be found thereabout and excellent crops are raised.

West of Port Orange a short distance are the remains of the old Dunlawton sugar mill, a spot that is visited every year by hundreds of tourists. At one time all the country west of Port Orange, surrounding the old mill, was a vast sugar-cane and indigo plantation. The mill was operated extensively in those days but has been in disuse for thirty or forty years.

A pretty automobile or carriage drive from Daytona is via the ocean beach to the approach of the Port Orange bridge, across the bridge and then passing through Port Orange to the ruins of the celebrated old sugar mill, returning to Daytona by the road on the mainland. This drive affords a very pleasing variety of scenery.

DELAND, the county seat of Volusia County, is situated 23 miles southwest of Daytona and is reached from the latter city by an excellent hard-surface road recently constructed.

At DeLand is located the John B. Stetson University, one of the leading educational institutions of the South. Because of the interest in matters educational DeLand is known as "The Athens of Florida."

Stetson University has a faculty of 50 professors and instructors. There are over $400,000 in buildings and equipment; nearly $300,000 endowment; a Carnegie Library alone representing an investment in building, endowment and books, of more than $120,000. The library is the United States Government depository for the State of Florida, and contains over 15,000 volumes. Science Hall, one of the newest of 16 buildings, with its furnishings, represents an outlay of $60,000. Elizabeth Hall is one of the most beautiful college buildings in the South.

The city has a population of about 3,500, with a thickly settled country adjacent. DeLand proper is five miles east of the St. Johns River, on the high, rolling pine land of the great "Orange Ridge" of Florida.

The predominating products are oranges and grapefruit, the estimated crop from this vicinity being over 300,000 boxes this year. Grapes, peaches, pears, Japan persimmons, plums, pecans, guavas, strawberries and other fruits are grown in plenty.

In the way of public improvements are many miles of fine shell roads, an excellent high school, electric lights, a system of waterworks that is owned and operated by the city, supplying the purest water at little cost.

Nine houses of worship testify that DeLand is a church-going community. Baptists, Episcopalians, Methodists (Northern and Southern), Presbyterians, Christians and Catholics, besides colored Baptists and Methodists, are represented.

The graded school offers a ten years' course, and the building which it occupies is newly furnished throughout, and is one of the most commodious and best equipped public schools in the State.

The trip from Daytona to DeLand is made by automobile in a little over an hour, and there are many pretty drives in the vicinity of the county site. A good road leads to DeLeon Springs, five miles, a historic spot, where 60,000 gallons of water bubble from the earth every minute. From DeLand automobiles go south to Osteen, 18 miles, on shell and marl roads; the St. Johns is crossed by ferry near Osteen and cars can then continue to Sanford and Orlando by hard road. There is a shell road from DeLand to Orange City, five miles, and a good road from DeLand to Lake Helen, a like distance.

LAKE HELEN

Surrounded by several pretty lakes and guarded by lofty pine trees is Lake Helen, a winter resort of no little importance. Camp Cassadaga, a spiritualistic camp-ground is situated near Lake Helen and at this place several hundred people make winter headquarters. A large lumber mill and the largest brick plant in the South are located at Lake Helen.

ORANGE CITY

The principal attraction around Orange City is the many handsome golden orange groves. The town is supplied with water said to be the purest in the world, another attraction to visitors. It is at Orange City that passengers over the Florida East Coast Ry. transfer to carriages and drive to Deland. The town is surrounded by land peculiarly adapted to the cultivation of citrus fruits.

NEWS FORECAST FOR THE WEEK TO COME.

WASHINGTON, Dec. 11—A number of events of more or less importance and interest will share space with the proceedings of Congress, the situation in Nicaragua and the progress of the budget campaign in Great Britain, in the news columns during the ensuing seven days.

It is expected that some of the most interesting news of the week will emanate from the Supreme Court of the United States. Foremost on the week's docket in the supreme tribunal are the so-called "cotton leak" cases, which are set down for hearing for Monday. It is also probable that argument will be heard in the Government's suit against the Tobacco Company, which, next to the Standar Oil case, is regarded as the most important of the Government's anti-trust suits.

President Taft has accepted an invitation to participate in the dedicatory exercises of the recently erected and occupied building of the Carnegie Institution in Washington, Monday evening, and will share with Andrew Carnegie, the founder of the Institution, the honors of the occasion.

The series of dinners and receptions to be given at the White House this winter will be inaugurated Thursday evening when President and Mrs. Taft will entertain the members of the cabinet at dinner.

Commander Robert N. Peary, who is to be the guest of the National Geographic Society at its annual dinner Wednesday evening, will on that occasion receive a medal as a decoration from that society. Many prominent persons will attend the dinner, and it is hoped that President Taft will also be a guest and present the medal to the explorer.

Pursuant to a decision reached at the Toronto convention, the presidents of the various organizations affiliated with the American Federation of Labor are to meet in Pittsburg Monday to outline a course of action against the alleged "open shop" policy of the United Steel Corporation, which the federation declares to be the "most formidable enemy" of the organized labor movement in America.

On Wednesday next Oklahoma will again become a Mecca of the land hungry. On that day the State will offer for sale at auction [illegible] acres of land, which is appraised at from eight to thirty-four dollars an acre. About half a million acres are listed as agricultural land, while the rest is better adapted to grazing.

The leading nations of the world will be represented at the second general Institute of Agriculture, which is to assemble in Rome, Monday, for a week's session. The object of the institute is to collect, study and publish statistical, technical and economic information to agriculturists, excluding "all questions relating to the economic interests, the legislation and administration of any particular nation."

WANT NO MORE YELLOW OLEO TO BE MANUFACTURED.

PHILADELPHIA, [illegible]

[illegible] the past, it is proposed to contest the manufacture and sale of the artificial product on the similarity it has been made to bear to the dairy food.

The ability of the manufacturers of oleo to make their product resemble butter without the apparent use of artificial coloring matter, it is contended, is the real cause of fraud and substitution. To prevent this, the butter manufacturers will urge congress to enact remedial legislation prohibiting the manufacture of oleo that is yellow, no matter what agency is used to bring about that result.

The proposed bill, it is said, will have the support of agricultural organizations and the dairy and food commissioners throughout the country. [illegible]

Scotch Repartee.

An [illegible] pened to dine with [illegible] lawyers of the Edinburgh bar. He appropriated to himself a large dish of cress, upon which he fed voraciously. Erskine, wishing to admonish him for his discourtesy to the other diners, remarked:

"Doctor, you remind me of Nebuchadnezzar in his degradation."

"Aye, do I mind ye o' Nebuchadnezzar? Doubtless because I am eating among the brutes," answered the Scotch worthy.

ANTICIPATING CHRISTMAS JOYS; CROWDS VIEWING TOY-SHOP DISPLAY.

Simple as the accompanying photograph may seem, it is more or less of a triumph in photography, a science that seems never ending in its possibilities. It shows a crowd of people looking through a toyshop window at the display within. The man with the camera was stationed inside the window and snapped the crowd through the plate glass pane. Ordinarily this would be impossible because the camera would be facing a high light, but in this instance the light in the store and in the street was about equal, making it possible to obtain clear likenesses of those who stood outside the window.

Mr. Tompkins is a mechanical engineer by profession, but has wide commercial interests. He is a member of the United States industrial commission and is the author of several works dealing with the expansion of American trade.

A Discourager.

"I don't believe in feeding tramps at the door," said Mrs. West. "You feed them once and they are sure to come back."

"Well, I don't know. I always give them bread when they come to my door, and I can't say I ever knew a tramp to come a second time."

"Oh, well, Mrs. Yeast, you make your own bread, do you not?"

That was all that was said, and yet Mrs. Yeast went down the street like a straw hat on a windy day.—Peterson's Weekly.

Doings at Daytona Beach

DAYTONA BEACH, Dec. 11— The first meeting of the W. C. T. U., organized at the M. E. church last week was held at the home of Mrs. Jula Stewart Friday afternoon.

C. H. Beckwith, who filled the position of clerk at the New Seaside last season, arrived from Cobleskill, N. Y., this week, and has again taken up his clerical duties. Mr. Beckwith's uniform courtesy rendered him very popular with the town folks as well as the tourists last winter.

Mrs. Wm. A. Runald's mother, Mrs. Gentjes, arrived Monday night from Baltimore, Md., and will spend the winter with her daughter, as usual.

Among the prominent guests at the New Seaside are Mr. and Mrs. L. T. [illegible], of Marysville, Mich., and Mrs. F. L. Burton and Mrs. D. P. Lee, of Chicago.

Mr. and Mrs. I. P. Haskins, of Wokeman, Ohio, are expected this week. They have engaged rooms with Mr. and Mrs. E. C. Hibbard, on Live Oak avenue.

On Thursday, this week, E. A. Braden leased Mrs. Morse's cottage on Seabreeze avenue to H. O. Johnson of Mankato, Minn. Mr. Johnson and wife and wife's father, Mr. Dahl [illegible] will occupy the cottage.

[illegible]

Seabreeze News

SEABREEZE, Dec. 11—Dr. B. F. Marsh will preach at the Seabreeze church Sunday afternoon. The pressure upon Dr. Marsh by his Seabreeze congregation has been so great that he has almost consented to accept his charge at the church again.

Sunday School will be called at 2 o'clock. Dr. C. P. Leland will have charge of the Bible class, and the public generally are cordially invited. Dr. Leland is sure to make the lessons interesting as he is unusually well posted on ancient literature.

Jerome Wetherby has just made a most acceptable donation of 22 volumes of histories of every country on the globe, compiled by the best historians of each country respectively, to the Seabreeze reading room. These books will be of inestimable value to the reading public and the student, and especially to the pupils of the public schools if they will avail themselves of the opportunity. Mr. Wetherby's gift is highly appreciated by those interested in the reading room.

W. A. Daggett arrived from Marion Thursday, and is visiting with his family and looking after business interests for a few days.

Attorney Kedell, of the law firm of [illegible] & Kedell, of Jacksonville, arrived from that city Thursday afternoon and is at the Princess Issena for a few days.

[illegible]

Mrs. Asa W. Powers, C. F. Burgoyne, and Col. W. M. Shaffner will make a business trip to DeLand [illegible].

Mrs. [illegible] W. Whitfield is having [illegible] place cleared of overgrowth of trees and shrubbery, and greatly improving the appearance of the property.

H. N. Mallery treated himself and family to a fine surrey a short time ago and some of his friends are enjoying a benefit.

WOULD LOCATE A FLOATING MENAGERIE IN DAYTONA.

H. N. McMillan, of Eau Gallie, who owns a floating menagerie of Florida animals including a number of alligators, would like to get dock room in this city for his boats in order to exhibit the animals here during the winter.

His main boat is forty-eight feet long by twenty-eight foot beam.

Mr. McMillan is now at St. Augustine.

NEW ENGLAND TEACHERS MEET AT BOSTON TODAY.

BOSTON, Dec. 11—The New England Association of English Teachers held its semi-annual meeting today at [illegible] University. The chief feature of the session was an address by Professor Otto Jespersen, professor of English in the University of Copenhagen.

GIRLS' BASKET BALL TEAM WAS [illegible]

A number of young ladies held a very enthusiastic meeting [illegible] afternoon at the home of Miss [illegible] Bingham, corner of Orange and Palmetto avenues. The object of the meeting was to see what could be done in the way of organizing a basket ball team.

After some discussion, Miss [illegible], Daytona's capable high school [illegible] who has had good training and is a fine player, agreed to act as [illegible] and was elected to the [illegible]. Miss Lee Bowers was elected captain and Miss Flossie Bingham, manager. It was decided to order [illegible] and goals at once. Another meeting will be held on next Wednesday afternoon to perfect the organization.

JEANETTE AND McVEY WILL FIGHT TONIGHT.

NEW YORK, Dec. 11 —Followers of sport in this city are awaiting with considerable interest the result of the fight between Joe Jeannette and Sam McVey, who meet in a thirty-round bout in Paris tonight for $5000 purse. While both of the big colored sluggers have never been considered better than second rates ,they may always be counted upon to put up a fierce battle. Their meeting in Paris last winter was a gruelling contest which ended in a defeat for McVey in the 14th round, after he had put up a game fight and knocked Jeannette down more than a dozen times.

[illegible] R. W. Whinfield and sister, Mrs. [illegible], and her little son, of [illegible], who were at the Seaside [illegible] are now at the old Whinfield [illegible] for the winter.

WOULD LOCATE A FLOATING MENAGERIE IN DAYTONA.

R. M. McMillan, of Eau Gallie, who owns a floating menagerie of Florida animals including a number of alligators, would like to get dock room in this city for his boats in order to exhibit his animals here during the winter.

His main boat is forty-eight feet long by twenty-eight foot beam.

Mr. McMillan is now at St. Augustine.

NEW ENGLAND TEACHERS MEET AT BOSTON TODAY.

BOSTON, Dec. 11—The New England Association of English Teachers held its semi-annual meeting today at Boston University. The chief feature of the session was an address by Professor Otto Jespersen, professor of English in the University of Copenhagen.

GIRLS' BASKET BALL TEAM WAS ORGANIZED

A number of young ladies held a very enthusiastic meeting Friday afternoon at the home of Miss Pearl Bingham, corner of Orange and Palmetto avenues. The object of the meeting was to see what could be done in the way of organizing a basket ball team.

After some discussion, Miss Pearl, Daytona's capable high school [illegible] who has had good training and is a fine player, agreed to act as coach and was elected to the position. Miss Lee Bowers was elected captain and Miss Flossie Bingham, manager. It was decided to order suits and goals at once. Another meeting will be held on next Wednesday afternoon to perfect the organization.

Pat's Rejoinder.

A British warship recently found it necessary to call at a military port on the coast of Ireland. Tommy Atkins meeting a full bearded Irish tar in the street a couple of hours later, said:

"Pat, when are you going to shave your whiskers on the reserve list?"

"When you place your tongue on the civil list," was the Irish sailor's reply. —London Tit-Bits.
